***Attending in Bangkok, Thailand or online: <https://www.trybooking.com/BZAVA>***

***Aims:***

*In an environment of collegiality and openness to provide an opportunity for:*

- *Health management academics, research students and professionals with an interest in education and workforce development to explore issues and establish networks of academics with similar research interests*
- *SHAPE members to discuss State and program issues and developments*
- *Academics and higher degree students to discuss their research ideas, plans and methodologies and explore current and new research and curriculum directions in a supportive environment*
- *The development of future strategies relating to SHAPE's objectives*

*This symposium in particular explores the challenges and opportunities currently facing our healthcare workforce, and the implications to health service educators, researchers and health service managers. We will also hear from presenters about the broader health service management research they are undertaking currently.*
