Email address	
Contact number	

**All authors involved in the paper.
Place a * next to the corresponding author**

*Titles, names, organisation affiliation
and email addresses*

Three categories of presentations are acceptable. Please choose the appropriate abstract structure, complete one of the table and delete the table that is not applicable:

- 1) presentations of research findings;
- 2) presentations of viewpoints to encourage debate and discussions or identify research agendas based on literature, research findings and practical experience.
- 3) Presentations of case studies to share practical experience and to encourage debate and discussions on innovative ideas in real practice

Structured research paper abstract - no more than 350 words (excluding references)

Abstract Title	
Theme that your paper will fit into	
Background	
Methods	
Results	
Outcomes and implications – including reference to healthcare management	
References (if applicable, limit to no more than 5 references)	

Structured viewpoint paper abstract - no more than 350 words (excluding references)

Abstract Title	
Theme that your paper will fit into	
Topic (the main issues that are addressed in this article)	

Rationale (why do the issues matter for health service management?)
Main ideas/arguments (draw down a few key points to present/discuss)
Questions and opportunities (for practitioners and researchers) – also with reference to healthcare management
References (if applicable, limit to no more than 5 references)

Case study abstract - no more than 350 words (excluding references)	
Abstract Title	
Theme that your paper will fit into	
Focus purpose and context What is the focus of the case study/example you are presenting? Why did you undertake this work – how did it come about? What are the key points about the context – type of organisation, sector, services, clients etc	
Process and methods How did you go about it? What methods did you use to gather and analyse data?	
Findings and application What insights came up, what did you learn? What do you plan to do with what you found to strengthen/change practice How do you think this might be of use to health management educators?	

References if applicable
